PROFILE

I am a recent graduate with a degree in Mechanical Engineering, but my true passion lies in the world of software development. Throughout my academic journey, I discovered a deep interest in coding and software design, leading me to pursue self-study and personal projects in the software field. My dedication and enthusiasm have propelled me to seek my first job opportunity in software development, where I am eager to apply my problem-solving skills and technical knowledge to contribute to innovative projects and continue my growth in this dynamic industry.

EDUCATION

BACHELOR OF ENGINEERING (MECHANICAL)　　　　2019 – 2023 | Salem, India
SONA COLLEGE OF TECHNOLOGY
CGPA - 8.72/10

SKILLS

- HTML
- CSS
- JAVASCRIPT
- MONGO DB
- EXPRESS JS
- REACT JS
- NODE JS
- GIT
- COMMUNICATION

PROJECTS

Agrivolve: Soil Sample Prediction System　　　　2023/03
- For my college final year project, I developed 'Agrivolve', a web-based solution that predicts ideal crops for soil samples using IoT sensors to collect vital soil data. 'Agrivolve' features an interactive, user-friendly interface created with HTML, CSS, and JavaScript.

Netflix Clone　　　　2023/05
- I developed a Netflix clone project using HTML, CSS, and JavaScript. This project replicates the core features and design aesthetics of the popular streaming platform.

Weather Forecasting Application　　　　2023/07
- Built a responsive weather app using React.js, showcasing comprehensive skills in web development, including API integration and real time weather data fetching and displaying using the OpenWeatherMap API.

MERN Stack To-Do Application　　　　2023/08
- Developed a responsive To-Do app using the MERN stack, demonstrating strong web development skills, including database design and seamless front-end and back-end integration, enabling users to perform CRUD operations on tasks.

Porfolio Website　　　　2023/10
- Created a responsive portfolio website using React.js, serving as a platform to showcase my projects and skills in web development.
